

Netherlands Customs & Brexit

Preparation

with or without

a deal

What does Brexit mean?

The United Kingdom (UK) left the EU on 31 January 2020.

The UK is no longer part of the internal market and customs union, the UK is a third country.

The effects of this will be felt at the end of the transitional period, the free movement of goods between the UK and countries in the EU ends.

Consequences for freight traffic

Customs formalities for imports, exports and transits

Possible levying of customs duties and trade policy measures

Non-tariff trade barriers (such as veterinary and phytosanitary requirements, product requirements, and checks on waste streams)

How is Customs preparing itself?

Ready by 31 December 2020

Short of 930 additional FTe

Recruited and trained

Housing and resources

Brexit affects us all

It is joint responsibility to minimize disruption at the border

with or without a trade deal

Trade has also to prepare

Cooperation is vital

Preparation needed both in NL and the UK

"Rotterdam port community combines forces for handling Brexit"

EU Border formalities - the Netherlands

NO DOCUMENT NO TRANSPORT

Participation in the Dutch chain solution (via the Port Community System - Portbase) is made mandatory by all ferry terminals and most shortsea terminals.

Traders and transporters need to act now and complete the 5 steps to be Ready for Brexit before the 1st of January 2021.

Whether you are driver, transport company, forwarder, importer or exporter-

Everyone has a role to play.

You will not have access to the NL terminals without digitally pre-notified customs documents.

5 easy steps

Step 1: Register with Customs

No relationship with Customs yet? **Request an <u>EORI number</u>** with them as soon as possible. Every company in Europe involved in import or export requires such a unique identification number. Also if you are an importer or exporter who uses a forwarder or customs agent for your import and export declarations. Please <u>contact</u> national customs as the application process may vary from country to country. Are you currently working with a UK EORI number? After the Brexit you have to convert this to an <u>EORI number from the EU</u>.

Step 2: Decide who takes care of the import and export declarations

After Brexit, determine whether you will submit import and/or export declarations to Customs yourself or whether you will use a forwarder or customs agent for this. If you submit the declarations yourself, you will need separate software and licences. For this software you will find an <u>overview of possible suppliers</u> on the Dutch customs website.

Perhaps authorisations from the <u>Netherlands Food and Consumer Product Safety</u>
<u>Authority</u> (NVWA) and/or ILT (Human Environment and Transport Inspectorate) are needed as well..

5 easy steps

Step 3: Determine who is responsible for the pre-notification of customs documents

After Brexit, the pre-notification of customs documents via Portbase is mandatory at all ferry terminals and most shortsea terminals. The importer/exporter can do this, but also the forwarder, customs agent or, on occasion, the transport company. Make clear agreements about this! Without pre-notification, the transporter will not be granted access to the terminal.

Step 4: Subscribe to the Portbase services

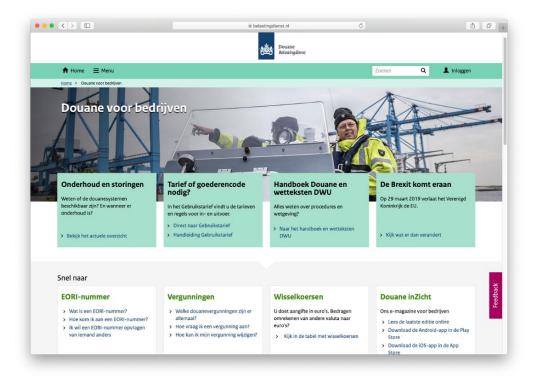

You can digitally pre-notify and track your cargo in real time via Portbase.

Step 5: Check beforehand whether the terminal has the customs document

Only cargo that has been digitally pre-notified can enter and leave the terminal. Otherwise, the container or trailer will come to a standstill here.

When exporting, you will then be referred to a temporary parking location.

Therefore, before you start driving, always check the status at the terminal via Portbase.
