# Framework of Standards- Objectives

- The Framework provides the standards for the effective management of cross-border E-Commerce from both facilitation and control perspectives. Overall, the Framework :
  - ✓ Establishes global standards to promote certainty, predictability, transparency, safety and security, and efficiency in the E-Commerce supply chain.
  - ✓ Promotes a harmonized approach to risk assessment, clearance/release, revenue collection, and border cooperation in relation to cross-border E-Commerce.
  - ✓ Establishes a standardized framework for advance electronic data exchange between E-Commerce stakeholders and Customs and other relevant government agencies with the aim to facilitate legitimate shipments, providing a more level-playing field for various stakeholders.
  - ✓ Seeks to strengthen co-operation between Customs administrations, other relevant Government agencies and other stakeholders involved in cross-border E-Commerce.
