

David Bellon – Chairman Air Cargo Belgium

Air Cargo Belgium – Community organization @ Brussels Airport

- 148 members
 - 24 Airlines
 - 57 Forwarders
 - 4 Ground Handlers
 - 63 other air freight stakeholders

Distribution COVID-19 vaccine - challenges:

- Total amount of vaccines \leftrightarrow Current capacity
 - 800 million vaccines preserved by EC
- Types of vaccines
 - Every vaccine has its own requirements such as temperature, life cycle, distribution channel...
- Flows: import and export
- Current market situation: capacity decrease > demand decrease
 - Congestions on prominent trade lanes
- Different solutions
- Usage of dry ice and re-icing activities
 - Limitations
- Safety and security: high visibility through entire cold chain
- Formalities such as customs clearance
- Flexible slots

Preparedness for distribution: BRUcure Task Force

- Based on Project Sunrays – TIACA & Pharma.aero
- Air Cargo Belgium and Brussels Airport
- Community approach: 12 forwarders active
- Divided into workpackages
 - Digital – Green Lane
 - SOPs
 - Capacity planning & mapping
 - Shipper requirements
 - Validation
 - Marketing
 - ...

- **Goal: COVID-19 Readiness & Stakeholder management**
